with World Class Technology*

DUST BOSS

The world's ONLY guaranteed Dust & odour Control system!

Dust Control Technology® is the leader in dust and odour control solutions for the cement, coal & power generation, composting, concrete & aggregate, construction, demolition, landfill, recycling & scrap, steel & slag, waste transfer and wood processing industries.

The DustBoss is a fully automatic, oscillating ducted fan with a high pressure misting system. Our patent-pending technology uses VPS™ (Variable Particle Sizing) to create a Virtual Dust Barrier™.
